Section A: Overview

About the University Student Outcomes Project

Since 1995, British Columbia's public universities have been tracking baccalaureate graduates, both two and five years after graduation,* through the University Baccalaureate Graduate Survey. Information about graduates' education satisfaction and financing as well as further education and employment outcomes are gathered through the survey. Five universities are currently participating in the project:

- University of British Columbia
- Simon Fraser University
- University of Victoria
- University of Northern British Columbia
- Royal Roads University**

The universities, together with The University Presidents' Council and the Ministry of Advanced Education collaborate on the project. The project is funded by the Ministry of Advanced Education and managed under contract by the Centre for Education Information Standards and Services.

Objectives of the BC University Baccalaureate Graduate Survey (UBGS)

The UBGS has been designed to gather information on graduates' education satisfaction levels, education financing and student debt as well as further education and employment outcomes. The purpose for gathering these data is:

- to meet the demand for university accountability at the system level in BC
- to gather timely and relevant data for use in program evaluation and planning processes
- to ensure that new, continuing and prospective students are provided with information they can use to help them make informed career decisions

The above goals are met through timely and thoughtful data collection, data management, and outcomes reporting. Both the two-year and the five-year UBGS survey instruments contain a core set of standardized questions, and in 2000 a relational database was constructed to house UBGS data. A rigorous data validation routine, also implemented in 2000, checks and standardizes the data ensuring accuracy and integrity over time. Accurate, standardized questions stored in a central database work to maximize the data reporting potential of the project and make it possible to conduct trend analysis of the data. Finally, the addition of a special-questions section provides for the opportunity to conduct research into specific issues or topics of interest. The core questionnaire sections are:

- Reasons for Enrolling and Education Satisfaction
- Education Evaluation and Skill Development
- Participation in Further Education
- Labour Market Participation
- Education Financing and Debt Load
- Special Questions
- Demographics and Equity

*exception: 1996 graduates surveyed 1 year and 5 years after graduation

**note: there are no Royal Roads University results in this report because RRU awarded no baccalaureate degrees in 1996

The Purpose of this Report

The following report presents summary survey results—by program classification and by institution—from the survey conducted in the fall of 2001 with 1996 baccalaureate graduates five years after graduation. From the total survey cohort of 9,531 graduates, 5,449 responded to the survey, representing a gross response rate of 57 percent. International students, medical and dental students, and students living outside of North America were excluded from the survey frame.

The results presented in this report are displayed in a two-page template format by program classification for each university and for all universities combined. The following core information is presented for each of the 13 program classification groupings (see Appendix A to review program groupings):

- Respondent Demographics
- Education Satisfaction
- Further Education Summary
- Education Financing
- Debt Load
- Employment Summary
- Labour Force Occupation and Salary Details
- Skills in Labour Market
- Changes Over Time - 1996 Graduates 1 and 5 Years Out

Reports were not produced for groupings in which there were less than 7 respondents. As well, labour force occupation and salary data is not shown in cases where $n < 2$ (or, for UBC, where $n < 5$), to ensure that no respondent may be uniquely identified. Program and occupation classification details and definitions, as well as detailed response frequency tables by institution and program area, can be found in the appendices at the back the report. Table 1 lists response rate information by institution:

Table 1: 2001 University Baccalaureate Graduate Survey Response Rates, by Institution

Institution	Survey Cohort	Out of Scope	Valid Net Frame	Unable to Interview	Refusals	Respondents	Gross Response Rate	Valid Response Rate
UBC	4,701	566	4,135	1,357	369	2,409	51%	58%
SFU	2,373	154	2,219	531	216	1,472	62%	66%
UVic	2,392	193	2,199	540	137	1,522	64%	69%
UNBC	65	5	60	11	3	46	71%	77%
BC System Total	9,531	918	8,613	2,439	725	5,449	57%	63%

Gross Response Rate = number of respondents / survey cohort

Valid Response Rate = number of respondents / valid net frame

Graduate Survey:
Summary of Survey Results by
Program Classification**

Section C: Appendices

Appendix A

Classification of Instructional Program (CIP)

The Classification of Instructional Programs (CIP) provides a comprehensive and detailed standard for reporting graduate outcomes by program area. This classification system has been adopted by Statistics Canada and many other government reporting agencies in the United States.

The CIP coding scheme is organized on three levels: 2-digit series, 4-digit series, and 6-digit program code. The 2-digit series is a logical grouping of related programs. The 4-digit series is an intermediate aggregation of programs with comparable program content and objectives. The 6-digit program code is the most detailed program classification within the classification system and represents a single instructional program.

Example:

The 6-digit CIP code for Biochemistry is 26.0202.

The 4-digit intermediate aggregation is Biochemistry, Biophysics and Molecular Biology (26.02).

The 2-digit logical grouping is Biological and Biomedical Sciences (26).

Since 1995, B.C. university graduate survey results have been classified into one of eight different program areas, independent of the CIP coding structure. These program areas included Arts, Applied Sciences, Business, Education, Fine and Performing Arts, Health, Science, and Social Professions. Starting with the 2000 survey results, the University Student Outcomes Project has classified the respondents according to the CIP coding scheme. For this report, the 2-digit logical groupings have been further aggregated into fifteen Program Classifications to reduce the total number of program areas and to increase the number of respondents in any one program area for reporting purposes. Of the fifteen Program Classifications created, thirteen are reported. Table 1 describes the aggregation of 2-digit CIP's into the fifteen USOP Program Classifications.

Table 1: USOP Program Classification Scheme
Derived from an Aggregation of 2-Digit CIP's

USOP Program Classification	Description	2-Digit CIP
Business	Marketing Operations/Marketing and Distribution	08
	Business Management and Administrative Services	52
Computing Science	Computer and Information Sciences	11
Education	Education	13
Engineering	Engineering	14

	Foreign Languages and Literatures	16
	English Language and Literature/Letters	23
	Liberal Arts and Studies, General Sciences and Humanities	24
	Philosophy and Religion	38

(continued on next page)

Law	Law and Legal Studies	22
Life Sciences	Biological Science/Life Sciences	26
Natural Resources and Agriculture	Agricultural Sciences	02
	Conservation and Renewable Natural Resources	03
Physical Sciences	Mathematics	27
	Physical Sciences	40
Social Sciences	Communication	09
	Home Economics, General	19
	Psychology	42
	Public Administration and Services	44
	Social Sciences and History	45
Architecture	Architecture and Related Programs	04
Inter-disciplinary Studies	Multi/Interdisciplinary Studies	30

Notes: a) Architecture and Inter-disciplinary Studies programs are not reported.

The above aggregation of CIP's includes programs from which graduates of the 1996 class are represented. This aggregation is subject to change in future surveys as the composition of graduates by program area expands or changes.

The number of survey respondents by Program Classification and by University is displayed in Table 2.

Table 2: Respondents by Program Classification by University

Program Classification	Respondents				
	BC	UBC	UPEL	UNBC	USBC
Business	157	142	79	9	387

Grand Total	2,409	1,472	1,522	46	5,449

Notes:

a) Cells in *italics* represent smaller programs with insufficient response data to report ($n < 7$).

b) Excluded programs are included in their respective university totals and the BC System total.

Appendix D contains more detailed information on response frequencies by institution and program area, including gross and valid response rates.

The following pages detail, by university, the way in which individual programs were aggregated into program areas for reporting purposes.

University of British Columbia

1. Fine and Performing Arts

Includes Programs in the Following Discipline(s):

Arts History
 Bachelor of Music
 Bachelor of Music - Major: Composition
 Bachelor of Music - Major: Music Theory
 Bachelor of Music - Major: Orchestral Instr.
 Film & TV Studies
 Fine Arts
 Music
 Piano
 Studio Arts
 Theatre
 Voice

2. Computing Science

Includes Programs in the Following Discipline(s):

Computer Science

3. Engineering

Includes Programs in the Following Discipline(s):

Bioresource Engineering
 Chemical Engineering
 Civil Engineering
 Electrical Engineering
 Engineering Physics
 Geological Engineering
 Mechanical Engineering
 Met. & Mat. Engineering
 Mining & Mineral Preq.

4. Education

Includes Programs in the Following Discipline(s):

Bachelor of Education

5. Law

Includes Programs in the Following Discipline(s):

Bachelor of Law

6. Health Professions

Includes Programs in the Following Discipline(s):

Dental Science
 Medical Lab Science
 Nursing
 Occupational Therapy
 Pharmacy
 Physical Therapy
 Speech Science

7. Health, Fitness and Kinesiology

Includes Programs in the Following Discipline(s):

Bachelor of Human Kinetics
 Exercise Science
 Exercise Science
 Human Kinetics - Major: Health & Fitness
 Human Kinetics - Major: Instruction & Coaching
 Human Kinetics - Major: Leisure & Sports Management
 Human Kinetics - Major: No Program Specified
 Human Kinetics - Major: Physical Education

8. Business

Includes Programs in the Following Discipline(s):

Accounting
 Bachelor of Commerce - Major: General Business
 Commerce and Economics
 Commerce and Law
 Finance
 Industrial Relations
 International Business
 Managmt Information Systems
 Marketing
 Transport & Logistics
 Urban Land Economy

9. Natural Resources and Agriculture

Includes Programs in the Following Discipline(s):

Bach of Science (Natural Resource Conservation)
Bachelor of Science (Agriculture)
Bachelor of Science in Forestry

10. Social Sciences

Includes Programs in the Following Discipline(s):

Anthropology
Economics
Family Science
Geography
History/ International Relations
History
Home Economics
International Relations
Physical Geography
Political Science
Psychology
Sociology
Social Work

11. Humanities

Includes Programs in the Following Discipline(s):

Asian Area Studies
Canadian Studies
Chinese
Classical Studies
Creative Writing
English
French
General Programme
German
Italian Studies
Japanese
Linguistics
Medieval Studies
Philosophy
Religion / Lit
Religious Studies
Romance Languages
Romance Studies

Spanish
Women's Studies

12. Life Sciences

Includes Programs in the Following Discipline(s):

Bachelor of Science (Dietetics)
Biochemistry
Biology
Life Sciences
Microbiology
Nutritional Sciences
Pharmacology & Therapeutic
Physiology
Zoology

13. Physical Sciences

Includes Programs in the Following Discipline(s):

Astronomy
Atmospheric Science
Chemistry
Climatology
Earth Sciences
Geological Science
Geophysics
Hydrogeology
Mathematical Science
Mathematics
Oceanography
Physics
Statistics

Simon Fraser University

1. Fine and Performing Arts

Includes Programs in the Following Discipline(s):

Critical Studies in Arts
Dance
Film
Fine & Performing Arts
Music
Theatre
Visual Arts

Criminology
Economics
Geography
History
JMA: Anthropology/Sociology
Political Science
Psychology
Sociology

2. Computing Science

Includes Programs in the Following Discipline(s):

Computing Science

3. Engineering

Includes Programs in the Following Discipline(s):

Engineering Science

4. Education

Includes Programs in the Following Discipline(s):

Bachelor of Education
Professional Development Program

7. Health, Fitness and Kinesiology

Includes Programs in the Following Discipline(s):

Kinesiology

8. Business

Includes Programs in the Following Discipline(s):

Business Administration

10. Social Sciences

Includes Programs in the Following Discipline(s):

Anthropology
Archaeology
Cognitive Science
Communication

11. Humanities

Includes Programs in the Following Discipline(s):

Canadian Studies
English
French
Humanities
Latin American Studies
Linguistics
Philosophy
Spanish
Women's Studies

12. Life Sciences

Includes Programs in the Following Discipline(s):

Biochemistry
Biological Sciences

13. Physical Sciences

Includes Programs in the Following Discipline(s):

Applied Mathematics
Chemistry
Management & Systems Science
Mathematical Physics
Mathematics
Physics

University of Victoria

1. Fine and Performing Arts

Includes Programs in the Following Discipline(s):

Bachelor of Fine Arts - Writing
 Bachelor of Music
 Bachelor of Music - Major: Composition + Theory
 Bachelor of Music - Major: Hist. and Litrtre.
 Bachelor of Music - Major: Performance
 Film Studies
 History in Art
 Music Education
 Theatre
 Visual Arts

2. Computing Science

Includes Programs in the Following Discipline(s):

Computer Science
 Computer Science / Math

3. Engineering

Includes Programs in the Following Discipline(s):

Computer Engineering
 Electrical Engineering
 Mechanical Engineering

4. Education

Includes Programs in the Following Discipline(s):

Bachelor of Education

5. Law

Includes Programs in the Following Discipline(s):

Bachelor of Law

6. Health Professions

Includes Programs in the Following Discipline(s):

Health Information Science
 Nursing

7. Health, Fitness and Kinesiology

Includes Programs in the Following Discipline(s):

Kinesiology
 Leisure Service Administration

8. Business

Includes Programs in the Following Discipline(s):

Bachelor of Commerce

9. Natural Resources and Agriculture

Includes Programs in the Following Discipline(s):

Environmental Studies

10. Social Sciences

Includes Programs in the Following Discipline(s):

Anthropology
 Child and Youth Care
 Economics
 Geography
 History
 Political Science
 Psychology
 Social Work
 Sociology

Includes Programs in the Following Discipline(s):

Astronomy
Chemistry
Earth Sciences
Mathematics
Physics
Statistics

12. Life Sciences

Includes Programs in the Following Discipline(s):

Biology
Bioc. and Micr. Biology
Biochemistry
Microbiology

University Of Northern British Columbia

6. Health Professions

Includes Programs in the Following Discipline(s):

Nursing

History
International Studies
Psychology

8. Business

Includes Programs in the Following Discipline(s):

Accounting
Finance
General Business
Marketing

11. Humanities

Includes Programs in the Following Discipline(s):

English
Bachelor of Arts (General)

9. Natural Resources and Agriculture

Includes Programs in the Following Discipline(s):

Bachelor of Science - NRM - Forestry

12. Life Sciences

Includes Programs in the Following Discipline(s):

Biology

13. Physical Sciences

Includes Programs in the Following Discipline(s):

Mathematics

10. Social Sciences

Includes Programs in the Following Discipline(s):

Geography

Appendix B

The National Occupation Classification (NOC)

From the document, National Occupation Classification Occupational Descriptions, published by Human Resources Development Canada.

The National Occupation Classification (NOC) is a systematic taxonomy of occupations in the Canadian labour market. It is based on extensive occupational research, analysis, and consultation conducted across the country. The NOC is intended for use in compiling, analyzing, and communicating information about occupations. There are approximately 25,000 occupational titles included in the NOC.

The two major attributes of jobs which were used as classification criteria in developing the NOC were skill level and skill type.

1. **Skill Level** is defined generally as the amount and type of education and training required to enter and perform the duties of an occupation. Four skill level categories are identified in the NOC; the criteria for each level are as follows:

Skill Level A Professional Occupations

- University degree (bachelor's, master's, or postgraduate)

Skill Level B Technical, Paraprofessional, and Skilled Occupations

- Two to three years of post-secondary education at a community college, institute of technology, or CEGEP or
- Two to four years of apprenticeship training or
- Three to four years of secondary school and more than two years of on-the-job training, training courses, or specific work experience
- Occupations with supervisory responsibilities are assigned to skill level B
- Occupations with significant health and safety responsibilities (e.g., fire fighters, police officers, and registered nursing assistants) are assigned to skill level B

Skill Level C Intermediate Occupations

- One to four years of secondary school education
- Up to two years of on-the-job training, training courses, or specific work experience

Skill Level D Labouring and Elemental Occupations

- Up to two years of secondary school and short work demonstration or on-the-job training

Management occupations are not assigned to a skill level category because factors other than education and training (e.g., previous experience, capital) are often more significant determinants for employment.

Appendix C

National Occupational Classification Matrix

	1 BUSINESS FINANCE AND ADMINISTRATION OCCUPATIONS	2 NATURAL AND APPLIED SCIENCES AND RELATED OCCUPATIONS	3 HEALTH OCCUPATIONS	4 OCCS IN SOCIAL SCIENCE, EDUCATION, GOVERNMENT SERVICE AND RELIGION
- Major Group 00 - SENIOR MANAGEMENT OCCUPATIONS 001 Legislators and Senior Management				
MANA- GEMENT OCCU- PATIONS	011 Administrative Managers 012 Managers in Financial and Business Services 013 Managers in Communication Except Broadcasting)	021 Managers in Engineering Architecture, Science and Information Systems	031 Managers in Health Education Social and Community Services 041 Managers in Public Administration	
SKILL LEVEL A University Degree	Major Group 11 PROFESSIONAL OCCUPATIONS IN BUSINESS AND FINANCE 111 Auditors, Accountants and Investment Professionals 112 Human Resources and Business Service Professionals	Major Group 21 PROFESSIONAL OCCUPATIONS IN NATURAL AND APPLIED SCIENCES 211 Physical Science Professionals 212 Life Science Professionals 213 Civil, Mechanical, Electrical and Chemical Engineers 214 Other Engineers 215 Architects, Urban Planners and Land Surveyors	Major Group 31 PROFESSIONAL OCCUPATIONS IN HEALTH 311 Physicians, Dentists and Veterinarians 312 Optometrists, Chiropractors and Other Health Diagnosing and Treating Professionals 313 Pharmacists, Dietitians and Nutritionists 314 Therapy and Assessment Professionals	Major Group 41 PROFESSIONAL OCCUPATIONS IN SOCIAL SCIENCE, EDUCATION, GOVERNMENT SERVICES AND RELIGION 411 Judges, Lawyers and Quebec Notaries 412 University Professors and Assistants 413 College and Other Vocational Instructors
SKILL LEVEL B College Certificate or Two or Four Years of Appren- ticeship	Major Group 12 SKILLED ADMINISTRATORS AND BUSINESS OCCUPATIONS 121 Clerical Supervisors 122 Administrative and Regulatory Occupations 123 Finance and Insurance Administrative Occupations 124 Secretaries, Records and Transcriptionists	Major Group 22 TECHNICAL OCCUPATIONS RELATED TO NATURAL AND APPLIED SCIENCES 221 Technical Occupations in Physical Sciences 222 Technical Occupations in Life Sciences 223 Technical Occupations in Civil, Mechanical and Industrial Engineering 224 Technical Occupations in Electronics and Electrical Engineering 225 Technical Occupations in Architecture, Drafting, Surveying and Mapping 226 Other Technical Inspectors and Regulatory Officers	Major Group 32 TECHNICAL AND SKILLED OCCUPATIONS IN HEALTH 321 Medical Technologists and Technicians (except Dental Health) 322 Technical Occupations in Dental Health Care 323 Other Technical Occupations in Health Care (Except Dental)	Major Group 42 PARAPROFESSIONAL OCCUPATIONS IN LAW, SOCIAL SERVICES, EDUCATION AND RELIGION 421 Paralegals, Social Services Workers and Occupations in Education and Religion, n.e.c.
SKILL LEVEL C Up to Two Years On- the-Job Training or Some Secondary	Major Group 14 CLERICAL OCCUPATIONS 141 Clerical Occupations, General Office Skills 142 Office Equipment Operators 143 Finance and Insurance Clerks 144 Administrative Support Clerks 145 Library, Correspondence and Related Information Clerks 146 Mail and Message Distribution Occupations 147 Recording, Scheduling and Distributing Occupations		Major Group 34 ASSISTING OCCUPATIONS IN SUPPORT OF HEALTH SERVICES 341 Assisting Occupations in Support of Health Services	
SKILL LEVEL D Little or No Secondary or Short On-the-Job Training

*Reports are not included for groupings with less than 7 survey completions:

- UVIC - Natural Resources and Agriculture (1)
- UNBC - Life Sciences (1)
- UNBC - Natural Resources and Agriculture (3)
- UNBC - Physical Sciences (2)

However, survey results from these program areas are included in the institution and system level reports.

For this reason, the sum of respondents per program area may be less than the number of respondents reported at the institution and system levels.

Appendix E

Technical Notes Relating to the Reports

Unless otherwise noted, denominators for the percentages provided in the reports include only cases where a valid response was provided (i.e. "Don't Know" and "Refused" responses have been excluded). However, percentages provided may not always add up to one hundred percent, due to rounding.

Respondent Demographics

Current Residence – Cases where the current residence is unknown are not reported in this graph. The denominator for this element is the total number of respondents for whom current residential data is available.

Education Satisfaction

Goal Achievement; Level of Satisfaction with Education Received – Percentages cited are of those who provided valid responses.

Further Education Summary

Where respondents took further education – Percentages cited are of those respondents who took further education. Because multiple responses were allowed for location, totals may exceed one hundred percent.

Top 5 reasons for enrolling in further studies – Percentages cited are of total reasons provided. Because respondents were permitted to specify a reason for each type of further education in which they had enrolled, the total number of reasons may exceed the total number of respondents.

Education Financing

Top 3 Main Sources of Education Financing – Where respondents cited more than one source, "main" source was considered to be that with the highest specified percentage of importance. Where equal percentages of importance were specified, the source cited first was considered the "main" source.

Employment Summary

In the Labour Force – Includes respondents who are either currently employed or are actively seeking employment.

(continued next page)

Of those employed – Full-time and part-time percentages are of employed respondents who provided data on number of hours worked. For this reason, full-time plus part-time percentages cited total one hundred percent.

Labour Force Occupation and Salary Details

Top 10 Full-time Occupations of Graduates – Percentages cited are of those for whom occupational data was provided.

Skills in Labour Market

Extent to Which Skill is Used in Performing Duties of Main Job – Percentages cited are of those who provided a valid response.

Changes Over Time - 1996 Graduates 1 and 5 Years Out

Full-time (of those employed) – The 1997 percentage cited was derived by dividing the total number of 1997 respondents working full-time by the total number of 1997 respondents working either part-time or full-time. Likewise, the 2001 percentage was derived by dividing the total number of 2001 respondents working full-time by the total number of 2001 respondents working either part-time or full-time.

Annual Full-time Income (Median) – The 1997 median reported is of all those working full-time in 1997 who provided income data and the 2001 median reported is of all those working full-time in 2001 who provided income data.

Would Take Program Again – In 1997, respondents were asked, “given your experience since completing your bachelor’s program, would you select the same program again?” The percentage reported for 1997 is the number of “yes” responses divided by the number of “yes” responses plus the number of “no” responses. In 2001, respondents were asked, “Given your experiences since graduation, would you select [name of program] again?” The percentage reported for 2001 is the number of “yes” responses divided by the number of “yes” responses plus the number of “no” responses.

Although many graduates were surveyed in both 1997 and 2001, others were surveyed in only one of the two survey years. As a result, the denominators of the percentages reported vary by year, and the median salary amounts reported are based on different sets of respondents.
